The Will decides on the Movement

4

STEPS by

SCHNEEBERG

Schneeberg offers with its new concept „4Steps“ an all-in-one individual office Furniture solution for an innovative digital working space made out of wood, created by nature.

The multi-functional Furniture is ergonomically, functional and in precious design. It can be moved in height and angle easily so that it fits to situational needs. Complementary modules for „INROOM-Solution“ make collaborative work in the office area even easier, more productive and joyful.

The Furniture can be adapted to your individual corporate design and esthetical needs so that it fits perfectly to your company philosophy. Optional the „4Steps“ can be ordered as mobile solution on wheels.

When the product is individually configured for you, there will be a special focus on the requirements of your multi-touch display. Schneeberg recommends NEC display products that can be purchased from qualified dealers.

The shelf of the „4Steps“ is designed for a perfect fit with your devices (e.g. pencils, mobile phone etc.) so that they do not fall down when the Display is turned. Furthermore „4Steps“ offers the possibility to recharge your devices during usage due to an integrated inductive charging solution.

Individuality and configurability are main characteristics of Schneeberg Furniture. A free selection of colors is possible right from the beginning. Individual branding possibilities for surfaces, connectors etc. provide a big creative freedom for our customers and the guarantee this individual Furniture fits perfectly into the whole office design.

## INROOM- Solution

As INROOM-Solution we understand the possibility of extending the multi-functional usage of your office. Two opposite multitouch-displays make collaborative group work even more effectively and the whole working process more productive. It doesn't matter if it's just a short discussion or a longer meeting – 4 Steps supports ergonomically the individual movement-needs and complements high-quality multi-touch technology with new functional and design aspects and solitaire furnitures.

As an accessory we recommend our coffee-trolley M 15/8 which supports an easy and relaxed working atmosphere.
